

SPECIAL CONDITIONS OF TENDER

The following conditions are applicable in addition to those contained in Bid Documents Part-I & Bid Documents Part-II (technical specification/requirements). In case, any of the conditions mentioned hereunder are contrary to those mentioned elsewhere, conditions mentioned in this document (Special conditions of Tender) shall supersede the corresponding conditions given in Bid Documents Part-I & II

A) Qualifying Requirement of Tenderers – Clause 0601 (e) of "Instructions to Tenderers", Bid Documents Part-I – Reference Clause

1. The tenderer should provide satisfactory evidence, acceptable to the purchaser to show that he is a regular machine tool manufacturer and has adequate plant and manufacturing capacity and has a "Quality Assurance Program". The information as per Annexure-2 under bid document Pt-I may please be furnished. The manufacturer should have valid ISO 9001 certificate on the date of closing of tender and a copy of same should be submitted along with the bid.
2. List of past supplies made in last 10 years along with purchaser's name and address, purchase order number & date, quantity supplied, date of supply and commissioning should be submitted along with the offer.
3. The details of similar machine asked for shall be furnished in the Annexure-A of Section-III of bid document part-II along with purchaser's name & address, P.O. no., copies of POs, phone & fax number, email address, date of supply and commissioning. Copies of POs submitted shall also indicate the parameters/specification of subject machine to prove similarity aspect of the machine as mentioned in para 4 below.
4. **Supply Criteria:** For the purpose of similarity, similar machine required under clause 3 means:

4.1 For regular order:

01 no. of CNC Under Floor Wheel Lathe manufactured and supplied in last 10 years for a Railway application. However, the track gauge and wheel diameter of the machine supplied may vary.

4.2 For developmental order:

- 4.2.1 01 no. of CNC Surface Wheel lathe or CNC Portal Wheel Lathe manufactured and supplied in last 10 years for Railway application. However, the track gauge and wheel diameter of the machine supplied may vary. OR,
 - 4.2.2 03 nos of "CNC Lathe machine manufactured and supplied in last 10 years, each having a minimum configuration in terms of following parameters: (a) Swing diameter over bed 1300 mm, (b) Centre distance 3000 mm, (c) Motor power 30 KW. and (d) Bed width 1000 mm".
5. Performance certificate of at least 01 no. of such machine (which are counted for the purpose of meeting qualifying criteria) supplied in the last ten years and working satisfactorily for at

least one year shall be enclosed with clear signature and address of the purchaser/firm using the machine where it is installed and commissioned.

The certificate shall not be older than **one year** from the original date of closing of tender.

6. Quantity of developmental order:

- i) A bidder suitable for developmental order will be considered for only 01 no. The total quantity for developmental orders, if any, shall not be more than 02 numbers. The machine to be supplied against developmental order shall include concomitant accessories and works. A bidder who has not manufactured and supplied in last 10 years (to be reckoned from the original date of closing of tender) CNC Under Floor Wheel Lathe against COFMOW's tenders shall only be eligible for quoting against the developmental order. The bidder who has already been placed with or will be placed with developmental order of CNC Under Floor Wheel Lathe, shall not be considered in subsequent tenders for the same machine till the machine ordered against developmental order is supplied, commissioned & successfully proved out and completes one year of satisfactory working after its commissioning. In addition, PTC in respect of the machine must have been issued before the original date of closing of the subject tender. **[Please refer Annexure-J of Section-III, Bid Document Part-I].**
- ii) The bidder qualifying against development clauses shall be considered for placement of developmental order provided they meet technical requirements as given in technical specifications of tender and their offer is competitive in price.

7. Payments Terms:

- a. **For Developmental Order:** The payment terms for machines under Development order will be 80% after supply and successful commissioning and prove out of machine at the consignee's premises and 20% after issue of PTC by consignee.
 - b. **For Regular Order:** The payment terms regular order will be 75% after receipt of machine in good condition at the consignee's premises and 15% after successful commissioning and prove out of machine and issue of PTC by consignee. Balance 10% shall be released on submission of Final Acceptance Certificate, No Objection Certificate (NOC) & No Claim Certificate (NCC) issued by consignee and submission of Bank Guarantee of 10% as Warranty Bank Guarantee (WBG).
8. All necessary information/ documents required for establishing reference requirement as per clause 2, 3, 4, 5 & 6 should be submitted by the bidder along with original offer itself. No clarification/ correspondence will be sought/ entertained in this regard. In case no information or incomplete information is furnished by the bidder, their offer will be summarily rejected.
9. Purchaser reserve the right to seek original performance certificate at any stage.

B. Tenderers are also required to ensure compliance of the following:

1. Inter-se evaluation will be done as per Evaluation Criteria mentioned in clause 5 Section- I of Bid Document Part-II.

2. For the purpose of evaluating the inter-se ranking of firms, the rates quoted in financial bids will only be considered. Bidders may note that any input given in remark field or elsewhere will not be considered for inter-se evaluation. Hence bidders should not enter any input like discount/any type of charges/statements having financial implications in the remark column. However, in case of any difference in quoted rates in financial bid and that indicated in the breakup of price in attached PDF file, remark column or elsewhere, purchaser reserve the right to avail lower rates, at the time of ordering.
3. Deviations other than the leading major parameters. For deviation if any, (Other than leading/ major parameters of machine for which no deviations shall be permissible) bidders are required to quote the same indicating clause no. and relevant documents (i.e bid document Part-I and Part-II etc) in the statement for commercial and technical deviations. Any deviation quoted elsewhere shall not be considered and it will be presumed that the bid meets/complies the tender conditions. Bidders need not quote clause wise comments against various clause of Bid document Part-I and part-II and may only quote deviations except for the detail as per technical bid Annexure-'A' if any, in the respective deviation statement (this condition will supersede the corresponding conditions mentioned elsewhere in tender documents.)
4. The bidder must submit the technical offer as per the format given in Annexure-A in Section-III. All the information as asked for, in the format must be given accordingly e.g. wherever a parametric value is asked it should be furnished, if a write up is asked for this should be provided and if a brochure or drawing or sketch is expected this should be provided. In case of incomplete/sketchy/illegible information, the technical offer will be considered as incomplete and is liable to be rejected.
5. Purchaser reserves the right to verify at any time, the details submitted by the Bidder by actual site visit. If the information furnished in the bid is found to be incorrect during verification, the bid shall be considered invalid and their EMD shall be forfeited and necessary action will be initiated including suspending business with Northern Railway. It is the bidder's responsibility to ensure that the information in the offer remains unchanged for the validity of the offer and must be verifiable during this period.
